

French ECO-INDUSTRIES

Association for the promotion and the international development of french eco-industries

The PEXE's objective is to promote eco-activities and accelerate their development.

Members of the PEXE:

- * The eco-industries clusters
- * R&D clusters
- * The professional syndicates
- * The institutional role players

Together they take concrete action aimed at strengthening the individual and collective competencies of the eco-industries, especially the small and medium businesses in France and abroad.

Actions benefiting the companies

- * Innovation
- * Access to financing
- * Commercial development
- * International development

Actions benefiting the network

- * Structuring of the sector
- * Promotion of the clusters
- * Distribution of economic information
- * Relaying between the companies and the public sector

THE PEXE

- * 3500 eco-industries represented
- * An observatory of french environment clusters
- * A private/public partnership
- * A «bottom-up» approach/procedure
- * An entry for international partnerships
